NOTICE TO PROPOSERS

ADDENDUM NO. 4

**SPECIFICATION No. R-7206
CITY OF LONG BEACH FIRE STATION 9**

This addendum changes and supersedes the language in the original Specifications. Please acknowledge receipt of this addendum by signing and submitting with your proposals. Any bidder who fails to submit this addendum may be disqualified.

Please note the following clarifications, additions, or changes:

1. CLARIFICATION RELATED TO ADDENDUM # 3:

Question:

In regard to Addendum 3 - Question/Answer #23 – It states “EVO Pure” by Kanalco as the manufacturer. However, Kanalco is not the manufacturer, rather one of the licensed fabricators for the EVO system. The EVO system is owned by Carter Architectural and Kanalco and OC Metals (our sister company) are one of the many fabricators around the US and Canada. If the EVO system is fabricated by Kanalco there will be unnecessary shipping costs coming from Canada. OC Metals is located in southern California and will have much better control over the schedule and any materials that need to be expedited and are fabricated locally, as opposed to in Canada. We ask that this can be re-evaluated and accept OC Metals as the fabricator on the EVO Plate system for this project.

Submittals for both O.C. Metals & Kanalco for your reference.

Answer:

OC Metals is accepted as a fabricator for the EVO Plate system, for this project.

THE SUBMISSION PERIOD FOR RFI'S IS NOW CLOSED

CONTACT: Before the Bid opening, prospective Bidders shall direct any communications regarding this Work to:

City of Long Beach, Department of Public Works
Office of the City Engineer, Bureau of Engineering
5th Floor, City Hall
