DESIGNATION OF SUBCONTRACTORS

Pursuant to State law, the Bidders must designate the name and location of each subcontractor who will perform work or render services for the Bidder in an amount that exceeds one half of one percent (1/2%) of the Bidder's Total Bid Amount, as well as the portion of the work each subcontractor will perform by entering the information online. No additional time will be provided to Bidders to submit any of the requested information in the Designation of Subcontractor Form.

Pursuant to the **Subletting and Subcontracting Fair Practices Act (commencing with Section 4100 of the Public Contract Code)**, bidders are required to list in their proposal the name and location of place of business of each subcontractor who will perform work or labor or render services in or about the construction of the work or improvement or a subcontractor who specially fabricates and installs a portion of the work or improvement according to detailed drawings contained in the Plans and Specifications in excess of 1/2 of 1% of this prime contractor's total bid, **including allowance bid items**. Failure to list a subcontractor for a portion of the work means that the prime contractor will do that portion of the work. It is the **City's** intent for the Subletting and **Subcontracting Fair Practices Act** to apply to all phases of the work. The list of subcontractors (on enclosed form) shall be executed and submitted with the proposal.
