Project No.: 3540SRAEUCO0182
Project Name: Parkfield Fire Station Facility Replacement
Location: 70331 Vineyard Canyon Road, Parkfield, California

Drawing Reference: N/A Project Manual Reference: 01 50 00 and 01 21 00

Question:

PG&E's charges for the utility-installed portion of the permanent service (poles, overhead primary, conductors, 75kVA transformer) fall under CPUC Electric Rules 15 and 16 and are billed to the PG&E Applicant. The Contract Documents do not state the amount or the responsible party: 01 50 00, 1.2 assigns charges for temporary facilities only; the \$330,000 Schedule of Allowances (01 21 00, 3.3) contains no allowance for utility charges; and GC 3.7.1 addresses governmental fees, not utility tariff charges. Please confirm PG&E's charges for the permanent service are paid by the State as owner and Applicant and excluded from the Contract Sum, with the Contractor's PG&E scope limited to the applicant-installed work shown (trench, duct, substructures, pad, coordination and inspection). If the State intends otherwise, please issue PG&E's current cost estimate by Addendum or establish a stated allowance, and confirm charges exceeding it are subject to adjustment.

Response:

The State does not intend otherwise. Please bid in accordance with the documents provided.
