

City of Ontario

ADDENDUM NO. 2 Bid Invitation # 2006

D&C23-015 Anthony Munoz Gymnasium

Today's Date is Tuesday, September 08, 2026

The following changes, omissions, and/or additions to the specifications and/or drawings shall apply to proposals made for and to the execution of the various parts of the work affected thereby, and all other conditions shall remain the same.

Careful note of the Addendum shall be taken by all parties of interest so that the proper allowances may be made in strict accordance with the Addendum and that all trades affected shall be fully advised in the performance of the work which will be required of them.

In case of conflict between drawings, specifications, and the addendum, this Addendum shall govern. This Addendum shall be incorporated into the final Contract.

Clarification:

The following clarification is hereby made to the solicitation for the above project:

1. The "City of Ontario Communications Infrastructure Planning and Design Performance Standards" document has been replaced with an updated version. The 05/24/2024 dated document is being removed from PlanetBids and being replaced with the 09/04/2025 version.
2. The AMCC Camera Survey and Floor Plan has been uploaded. This references locations for installation but also the Axis Model and HID Signo access control reader information which is also a part of IT Specifications, listed above.

3. An updated Subcontractor Listing Form has been uploaded to PlanetBids. Any telephone number can be listed within the address field of the sub.
4. The City utilizes Bay Alarm for Fire Monitoring. The fire control panel should be a Silent Knight panel, either the 6820 or 6700 model. We do not utilize cloud based, CLSS pathway as it needs to be a standard DACT or telco dialer.

This Addendum must be acknowledged electronically, the bid management system will not perform submission of a bid until all addenda are acknowledged.
