CHANGES TO THE REQUEST FOR PROPOSALS AND QUALIFICATIONS

ITEM NO. 2.1: Prequalifications Clarification.
Refer to the Request for Proposals and Qualifications (RFPQ), Section I.C.
Add the following to Section I.C Prequalification Applications:
Prequalification is required for the prime contractor (Class A or B license) and for any MEP contractor or subcontractor performing work that requires one of the following license classifications: C-4, C-7, C-10, C-16, C-20, C-34, C-36, C-38, C-42, C-43, or C-46. Accordingly, the Fire Sprinkler Subcontractor (C-16) and Sheet Metal Subcontractor (C-43) are considered MEP subcontractors and must be prequalified.

ITEM NO. 2.2: Prequalifications Clarification.
Refer to the Request for Proposals and Qualifications (RFPQ), Section IV.E.
Add the following to Section IV.E Subcontractors.
As stated in RFPQ Section I.C, prequalification requirements are determined by the scope of work a subcontractor will perform on this Project, not solely by the licenses the subcontractor holds. An MEP subcontractor is any subcontractor performing work that requires a C-4, C-7, C-10, C-16, C-20, C-34, C-36, C-38, C-42, C-43, or C-46 license. For example, a subcontractor that holds a C-36 license but is performing only C-8 concrete work, and no work requiring one of the listed MEP license classifications, is not required to be prequalified. However, any subcontractor performing work that requires one of the listed MEP license classifications must be prequalified.

CHANGES TO THE PROJECT MANUAL

None.

CHANGES TO THE DRAWINGS

None.
